

FILMING & EDITING

FOR BUSINESSES & CONTENT CREATORS

Borneo-Sporenburg / Filming, direction & editing

I'll plan, film and edit your content,
so you have more time for everything else.

Based in the Netherlands. Remote editing for clients abroad.

Hi, I'm Dennis.

I started learning video editing and content creation 12 years ago, and have been editing professionally for about seven years. Today I work on interviews, YouTube videos and social content, and also plan and film projects in the Netherlands.

If content keeps slipping down your to-do list, I can take on the production. We'll agree what needs making and when, then I'll handle the work included in your package. You'll deal directly with me.
